## PROFESSIONAL SUMMARY

- Results-driven Angular developer with a strong focus on Angular framework development.
- Skilled in creating robust components and modules, leveraging Angular Routes for seamless navigation.
- Proficient in utilizing popular npm modules and libraries, including Angular Material, PrimeNG, Bootstrap, PDFMake, and others, to develop advanced Angular web components.
- Experienced in integrating Restful APIs, managing sessions, and implementing local storage.
- Strong troubleshooting abilities using Chrome developer tools. Solid understanding of Angular directives, pipes, services, decorators, and RxJS.
- Successfully executed Angular framework migrations to ensure up-to-date technology adoption.

## CORE COMPETENCIES

Requirement Analysis | Analytical Abilities | Effective Communication | Domain Understanding  
Continuous Learning | Problem-Solving & Debugging Excellence | Team Collaboration.

## TECHNICAL SKILLS

**Framework & Libraries:** Angular 8 & above, Angular Material, PrimeNG

**Package Management & Integration:** Npm Modules Integration, Third-Party Libraries Integration

**Web Technologies:** JavaScript, TypeScript, RxJS, HTML, CSS, Bootstrap

**RESTful API Integration:** Angular HTTP Client, REST API Consumption, Data Parsing and Handling

**Code Quality & Version Control:** SonarQube, ESLint, Code Reviews, Git, GitHub, GitLab

**Development Tools:** Angular CLI, Visual Studio Code

## EDUCATION

YEAR	DEGREE	INSTITUTION	PERCENTAGE
2019 - 2021	MSc. Computer Application	Fergusson College	88.17%
2016 - 2019	BSc. Computer Science	Fergusson College	82.05 %
2014 - 2016	Class XII HSC	Fergusson College	75.69 %
2014	Class X SSC	Sardar Dastur Noshervan Girls' High School	89.90 %

## WORK EXPERIENCE

### ELECTRONICS SYSTEM ENGINEER

2023-08 – PRESENT

#### CUMMINS INDIA PRIVATE LIMITED, PUNE, MAHARASHTRA

- Expertly integrated the fast-xml-parser npm library, effectively handling XML-to-JSON conversion with precision.
- Designed and implemented an intuitive tree view interface, presenting parsed data in an organized and visually engaging format.
- Seamlessly bridge the gap between business needs and technical solutions through in-depth requirement analysis. Collaborate closely with stakeholders to gather and translate requirements into technical specifications, ensuring project success.
- Drive interactive presentations and implementation demos for stakeholders, facilitating an effective feedback loop and promoting alignment between project progress and stakeholders' expectations.
- Demonstrate versatility by combining expertise in frontend development, requirement analysis, and electronics systems, contributing to the success of multifaceted projects.

### ENGINEER

2021-07 – 2023-07

#### CUMMINS INDIA PRIVATE LIMITED, PUNE, MAHARASHTRA

- Led the successful migration of the Angular framework from Angular 8 to the latest versions (13/14/15), ensuring enhanced performance and features.
- Spearheaded the design and development of the IDAT application using Angular 8 and above, in conjunction with Spring Boot 2.6.6.
- Leveraged Angular Material to create visually appealing and responsive user interfaces, ensuring a seamless user experience across different devices.
- Implemented client-side form validation using Angular Reactive Forms & Template Driven Forms, including custom validators for data integrity, and utilized the Angular HTTP Client module for efficient communication with backend APIs.
- Collaborated closely with development teams, actively engaging in code reviews to uphold high standards of code quality.
- Developed multiple screens and actively resolved production issues to ensure uninterrupted application functionality.

### INTERN

2020-12 – 2021-06

#### CUMMINS INDIA PRIVATE LIMITED, PUNE, MAHARASHTRA

- Actively contributed to live projects, collaborating with the team to deliver high-quality work within timelines and participating in design and technical discussions.
- Developed and executed comprehensive test strategies to ensure software quality, collaborating with senior developers to resolve issues and performing debugging activities.
- Assisted in creating technical documentation, providing clear explanations of functionalities, and seeking feedback from experienced team members for growth.
- Completed tasks on time, receiving positive feedback for proactive learning and enthusiastic contribution to the team's success.
